FROM THE PREFACE :

*Perhaps a few words ought to be said about the reason why the seventh volume of the complete set is the first to appear. The present uncertain and unsettled economic conditions of the world have greatly*

restricted our possibilities. We cannot afford to produce the whole collection at once, we must be prepared for eventualities and realize that we have to proceed step by step. Thus we considered that it might be useful to publish in the first place one of the two volumes containing the non-elementary lectures, because these are more scattered than those papers which have appeared in current scientific journals.

---

#### PLAN OF PUBLICATION:

The edition of Lorentz' various papers will collect all treatises which have not already appeared in bookform.

With the exception of his dissertation, which will be published in two languages, the scientific papers will be published in one of the leading international tongues.

The editors are: Dr. P. ZEEMAN, Dr. P. EHRENFEST †, and Dr. A. D. FOKKER.

The collected papers of H. A. LORENTZ will appear in 9 volumes of about 350 to 400 pages each, roy. 8vo. Each volume will be available separately, but the subscribers to the whole series of 9 volumes will have the benefit of a considerable reduction in price.

The price per volume, paper covers, is fixed at 10 guilders, or bound in buckram, top gilt 12 guilders.

Subscribers to the 9 volumes may have the set for 75 guilders, or bound in buckram, top gilt for 90 guilders.

The publisher acknowledges with thanks the warm reception accorded the publication of the COLLECTED PAPERS of Professor LORENTZ. Though this is gratifying, the number of subscriptions is not yet sufficient to allow the publication of a second volume at once. Those interested in promoting this publication should send in their subscriptions without delay. The publication of the second volume will determine the issue in regard to publication of the rest of this work.

**Immediately after the publication of a second volume  
the work is no longer available at subscription price.**
